License No. SNM-7
Docket No. 070-00008

Dear Dr. Brog:

SUBJECT: NOTICE OF VIOLATION DATED APRIL 26, 1994

This acknowledges receipt of Stephen J. Layendecker's letter dated May 24, 1994, in response to our letter dated April 26, 1994, transmitting a Notice of Violation.

In Mr. Layendecker's response, he indicated that documentation on the proper disposition of a 0.05 microcurie (1.85×10^3 becquerel), plutonium-239 disk source had been located. This was one of nine sources for which final disposition information was unavailable at the time of our inspection. We acknowledge this information and remind you that the NRC will continue to monitor this issue (IFI No. 070-00008/94001-01) until information on the disposition of the other eight sources is provided.

Your corrective actions for the violation appear adequate and will be examined during future inspections.

Sincerely,

ORIGINAL SIGNED BY W. L. AXELSON
