

NOV 07 1979

NOTE TO: The Files  
FROM: : John T. Collins  
SUBJECT: POTENTIAL SECURITY VIOLATIONS

In a meeting of Derry Township Supervisors on November 5, 1979, I was advised by two town residents that several Met Ed and contractor employees have been observed climbing the controlled area fences to avoid searches. The residents informed me that this practice has occurred numerous times over the past six months. Several weeks ago, they informed me that one contractor employee, in trying to climb the fence, fell and broke his ankle. I told him that I was unaware of any such incidents or about the alleged accident. However, I would look into the allegation.

On November 6, 1979, I met with Jim Stacey, Chief of Met Ed Security and I was assured that such practices as noted above, have not occurred nor had there been any individual hurt on the site the time period noted.
