License: 35-21462-02

Wagoner Community Hospital
ATTN: Mr. Timothy Francis
Hospital Administrator
P.O. Box 407
Wagoner, Oklahoma 74467

SUBJECT: NRC INSPECTION REPORT 030-33322/94-01 (NOTICE OF VIOLATION)

This refers to the initial, unannounced inspection conducted by Ms. M. Linda McLean of this office on May 24, 1994. The inspection included a review of activities authorized by Byproduct Materials License 35-21462-02. At the conclusion of the inspection, the findings were discussed with members of your staff.

The inspection was an examination of activities conducted under the license as they relate to radiation safety and to compliance with the Commission's rules and regulations and the conditions of the license. The inspection consisted of selective examinations of procedures and representative records, interviews of personnel, independent measurements, and observation of activities in progress.

During this initial inspection, the inspector discussed with your staff the requirements with which you must comply, including the NRC and Department of Transportation regulations, and the commitments in your license application. The NRC enforcement policy was also discussed at this time.

Based on the results of this inspection, certain of your activities appeared to be in violation of NRC requirements, as specified in the enclosed Notice of Violation (Notice).

You are required to respond to this letter and should follow the instructions specified in the enclosed Notice when preparing your response. In your response, you should document the specific actions taken and any additional actions you plan to prevent recurrence. After reviewing your response to this Notice, including your proposed corrective actions and the results of future inspections, the NRC will determine whether further NRC enforcement action is necessary to ensure compliance with NRC regulatory requirements.

The inspector noted that this clinical nuclear medicine laboratory had performed approximately seven procedures per month since first receipt of byproduct material on January 13, 1994.

In accordance with 10 CFR 2.790 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be placed in the NRC Public Document Room.

The responses directed by this letter and the enclosed Notice are not subject to the clearance procedures of the Office of Management and Budget as required by the Paperwork Reduction Act of 1980, Pub. L. No. 96.511.

Should you have any questions concerning this letter, please contact the inspector identified above at (817) 860-8100.

Sincerely,

Samuel J. Collins, Director
Division of Radiation Safety
and Safeguards
