FOR AFFIRMATION

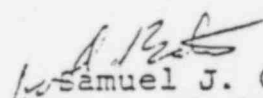

JANUARY 7, 1982

SECY-81-603B - PROPOSED RULEMAKING - ENVIRONMENTAL QUALIFICATION  
OF ELECTRIC EQUIPMENT FOR NUCLEAR POWER PLANTS

The Commission is being asked to approve a proposed rule to clarify and strengthen the criteria for environmental qualification of electric equipment.

All Commissioners have approved the proposed rule as attached (1). The Commission has also approved a Staff Requirements memorandum (Attachment 2) that asks the NRC staff to address a number of issues. Commissioner Bradford has additional views with which Commissioner Gilinsky agrees (Attachment 3). The additional views will be published with the proposed rule.
