Regarding: Control #85112

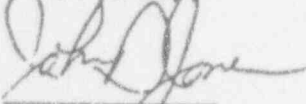

Dear Ms. Matson:

Pursuant to our telephone conversation on Friday April 1, 1988, I am requesting an amendment to our license 21-00215-04 to permit the manufacture of invitro RIA kits as generally described in the accompanying documentation which has been approved by The University of Michigan Radiation Policy (Radiation Safety Committee). It is my understanding that an application has been made by BioQuant of Ann Arbor Inc. to permit distribution under 10 CFR 32.71 and that the control number for that request is #85112. It is also my understanding that this amendment to the University license is necessary before BioQuant may distribute the kits outside the confines of The University of Michigan.

If there is any additional information required, please let me know as soon as possible.

Enclosed is a check for \$120.00 to cover the cost of the license fee.

Yours truly,

John D. Jones
Director
