Re: License No. 34-12436-02
Docket No. 030-11674

May 12, 1994

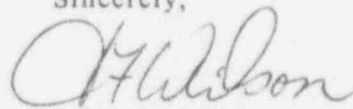

Dear Mr. Holt:

In response to your April 22, 1994, letter regarding a regulatory concern identified during discussions with Bob Gattone of your staff, the following corrective action has been taken.

As advised by Mr. Gattone, Amendment #07 to our license, 34-12436-02, was submitted to the U.S. Nuclear Regulatory Commission, Region III, Material Licensing Section on April 8, 1994. The requested revision will amend Condition 11, authorized user, from Stanley Eng to Wayne Miller, Quality Assurance Manager. We are currently waiting for the requested amendment to be processed.

I believe that the above stated corrective action will satisfactorily resolve this matter. Please contact me if you should have any questions or need further information.

Sincerely,

Thomas F. Wilson
