DOCKET NUMBER (34)
PETITION RULE PRM-50-35
(47 FR 51889)

Mr. Chilk:

11/27/82

The public has the right to know exactly how operators of nuclear plants would respond in case of emergency in advance of licensing. Please consider the amendments proposed by the Union of Concerned Scientists to 10CFR 50.476(k), which would allow public intervention if evacuation and emergency plans are not adequate. Many thanks -
