Attention: Mr. Lawrence F. Friedman,
Senior Health Physicist,
NMS Section A

Subject: Control Numbers: 109519, 109520, 109521, and 109522

Dear Mr. Friedman:

This refers to your 1988 November 1 letter, to the clarification of fee requirements in the November 17th letter from Glenda Jackson, and the recent telephone conversations you have had with our Mr. Joe Stirling.

We are enclosing duplicate application forms #313 for each of the previous licences that are to be replaced, namely:

54-00300-09 (Irradiator Sources - Type C-188)
54-00300-12 (Research Irradiators)
54-00300-13 (GC-1000 Research Irradiator)
54-00300-16MD (Distribution of I-125 Sources)

You should already be in possession of my suggested changes to the first three which were attached to my 1988 October 25 letter to Glenda Jackson. Those changes dealt with both the Company name change and some amendments to the names of service representatives, and my inclusion as the RSO. In those suggested changes, when altering the references to ABEL to Nordion International, I mistakenly used the abbreviation NII. I wish now to correct this error and replace all ABEL references with "NORDION" where an abbreviation is required. I have taken the liberty again of enclosing appropriately marked up copies of the old licences. Note that the 54-00300-16MD modified copy has not been sent before.

-2-

The correction to the fees, as described in Glenda Jackson's 1988 November 17 letter, is covered by the enclosed cheque for U.S. \$3,520 (\$4,180 total due minus \$660 paid). The application forms each show the appropriate fee (-09, -12, -13, at \$1,160 each and \$700 for -16MD) which adds to the total \$4,180.

As suggested, I am enclosing the cheque with the copy of this letter that is going to Glenda Jackson. I am sending to you the completed application forms with their accompanying documentation.

Yours sincerely,

A handwritten signature in cursive script that reads "B.J. Jackson". The signature is written in dark ink and is positioned to the right of the typed name.

B.J. Jackson,
Manager, Radiation Control
and Regulatory Affairs.
