Gentlemen:

DOCKET NO. 50-483
CALLAWAY PLANT
OPERATING QUALITY ASSURANCE MANUAL, CHANGE NOTICE 94-03

Reference: 1) ULNRC-2809, Dated June 9, 1993

Furnished herewith for your review and approval is a Change Notice to the Callaway Plant Operating Quality Assurance Manual (OQAM). The purpose of this revision is to allow alternate methods of qualifying contract personnel to perform safety-related work at Callaway. The revision consists of the following:

1. OQAM (Change Notice 94-03) mark-up identifying changes through the use of inserts and strikeouts.
2. Explanations and justifications for changes to the OQAM.

Pursuant to the requirements of 10CFR50.54(a)(3), Union Electric has evaluated these changes and has concluded that the revised OQAM continues to satisfy the requirements of 10CFR50, Appendix B. However, the revision may be interpreted as a lessening of commitment and, therefore, requires your approval prior to implementation.

If you have any questions, please contact us.

Very truly yours,

Donald F. Schnell
