Docket No. 50-29
LS05-82-11-076

Mr. James A. Kay
Senior Engineer - Licensing
Yankee Atomic Electric Company
1671 Worcester Road
Framingham, Massachusetts 01701

Dear Mr. Kay:

SUBJECT: FINAL EVALUATION REPORT OF SEP TOPIC VI-4, CONTAINMENT
ISOLATION SYSTEM FOR THE YANKEE NUCLEAR POWER STATION

By letter dated September 1, 1982, we issued a draft safety evaluation for SEP Topic VI-4, "Containment Isolation System." Also, in that letter we requested that you provide comments within thirty days of receipt of that letter in order that they could be included in our final report. Since this period of time has elapsed and no comments have been received, we assume that the draft report was factually correct and complete. Therefore, we now consider that report final and it will be a basic input to the integrated safety assessment for your facility. The need for certain system modifications in order to bring this plant's design into conformance with current criteria will be determined during the same integrated assessment.

Sincerely,
