JUN 12 1990

Dear Mr. Bailey:

Enclosed for your information is a copy of our industrial radiography field inspection notes describing our inspection findings for one of your licensees. On May 21, 1990 we conducted an unannounced inspection of Valley Industrial X-Ray (California License No. 4182-15), in Bakersfield, California. The inspection pertained to the licensee's activities in 1988 at Vandenberg Air Force Base and 1989 at Edwards Air Force Base. On May 7, 1990 we notified Kim Wong of our intent to perform the May 21st inspection.

The licensee's radiographic activities on March 24, 1989 and October 26, 1989 at Edwards Air Force Base were not preceded by an NRC Form 241 reciprocity notification. This constituted one of the three violations of NRC requirements noted on the enclosed NRC Form 591.

If we can provide additional information concerning our inspection please contact this office.

Sincerely,

H. Dean Chaney, Acting Chief
