Ms. Judy Kille  
Box E-51  
R.D. 1  
Etters, Pennsylvania 17319

Dear Ms. Kille:

The NRC Environmental Assessment of the Use of EPICOR-II for processing of the contaminated auxiliary building water has finally been printed, and I am enclosing a copy for your use as promised at our meeting a few weeks ago. Although this may not mitigate your concerns over activities at TMI, I sincerely hope that it will enable you to better understand what is going on and for what reasons. Please note that if the use of this equipment is authorized following the thirty-day public comment period, it does not authorize disposal of the contaminated water. That issue will be the subject of a further assessment.

If you have questions on this or other matters, please feel free to call or write me.

Sincerely,

Original signed by  
Richard H. Vollmer
