Docket No. 50-267

Mr. O. R. Lee, Vice President E
 Electric Production
 Public Service Company of Colorado
 P. O. Box 840
 Denver, Colorado 80201

Dear Mr. Lee:

We have completed our review of the "Manual Class I/Class II Valve Study" which was presented to the NRC in an October 12, 1977 meeting and documented by letter dated October 18, 1977. Subsequent letters dated May 8, 1978 and June 15, 1979 provided your resolution of valve configurations requiring corrective action which had not been previously addressed. It is our understanding that all corrective actions which you identified have been accomplished.

Based on our review, we have concluded that this issue has been acceptably resolved and no further action is required. Therefore, we consider your commitment to resolve this issue to be satisfactorily completed.

If you have any questions on this subject, please contact your Project Manager.

Sincerely,

Original signed by
 Robert A. Clark
