SUBJECT: Limerick Generating Station, Units 1 and 2
Technical Specifications Change Request 92-03-0
Revised Technical Specifications Pages

Gentlemen:

By letter dated October 15, 1992 PECO Energy Company submitted Technical Specifications (TS) Change Request No. 92-03-0 for Limerick Generating Station (LGS), Units 1 and 2, requesting changes to the LGS TS surveillance intervals to facilitate a change in LGS refueling cycles from 18 months to 24 months.

Since this request was submitted, the NRC has approved and issued LGS, Unit 1 and Unit 2, licensing amendments that resulted in changes to several TS pages which were contained in the October 15, 1992 submittal. PECO Energy re-submitted the TS pages which were affected by subsequent amendments by letter dated April 29, 1994. Inadvertently, Unit 1 and Unit 2 TS page 3/4 6-14 was re-submitted on April 29, 1994, without all the proposed 24 month changes identified within the October 15, 1992 submittal.

Attachment 1 to this letter contains the revised Unit 1 and Unit 2 TS page 3/4 6-14 for Change Request No. 92-03-0 and supersedes all previous submittals affecting this page. This information is being submitted under affirmation, and the required affidavit is enclosed.

If you have any questions, please do not hesitate to contact us.

Very truly yours,

G. A. Hunger, Jr., Director
Licensing
