Attention: Sharon Johnson

Dear Ms Johnson:

This is in response to your telephoned request of 27 May. Enclosed is a copy of my letter of 25 April to you describing the removal or storage of our radioisotopes in order to enter a storage-only status for our by-products license and to terminate our special nuclear materials license. Also enclosed are copies of the documents pertaining to the disposal of isotopes at the Barnwell site. The earlier letter describes the survey of our laboratories and storage rooms.

Please write or call me for further information.

Yours sincerely,

Louis Brown

Louis Brown
Radiation Safety Officer
