Mr. John P. Jackson

11095 Torreyana Road
San Diego, CA 92121

Dear Mr. Jackson:

The comments on NRC quality assurance measures and organizational concepts you conveyed in your letter of September 21, 1982 are appreciated.

The meeting on October 20, 1982 between Management Analysis Company and NRC to discuss quality assurance and to provide informal feedback on the initiatives currently being implemented or considered was helpful. I understand that Mr. DeYoung plans to have further discussions with you in the near future. This interaction between Government and industry can only lead to increased understanding and thereby improved decision-making.

Your initiative in providing comments is commendable. The NRC looks forward to continued communications with you and other industry representatives.

Sincerely,

Nunzio J. Palladino
