

CHAIRMAN

UNITED STATES  
NUCLEAR REGULATORY COMMISSION  
WASHINGTON, D. C. 20555

June 16, 1994

Mr. Zack Pate  
President and Chief Executive Officer  
Institute of Nuclear Power Operations  
700 Galleria Parkway  
Atlanta, GA 30339

Dear Mr. Pate:

This is in response to your letter to me dated June 9, 1994, and the matters we discussed earlier that week. The Executive Director for Operations (EDO), has extensively discussed your specific statements of concern with involved regional management and will continue to followup on these matters.

As you know, the agency is concerned about performance of nuclear operations at a number of plants, some of which will be discussed at the Commission Briefing on Operating Reactors and Fuel Facilities on June 23, 1994. Where poor operational safety performance has been identified, the regulatory actions taken by regional management are fully supported by the EDO.

Sincerely,

Ivan Selin
