Mr. Richard P. Crouse
Vice President, Nuclear
Toledo Edison Company
Edison Plaza - Stop 712
300 Madison Avenue
Toledo, Ohio 43652

Dear Mr. Crouse:

SUBJECT: TRAINING FOR MITIGATING CORE DAMAGE - REQUEST FOR ADDITIONAL
INFORMATION (Letter from R. P. Crouse to J. F. Stolz
dated May 10, 1982)

In our review of NUREG-0737 Item No. II.B.4 for the Davis-Besse plant,
we have identified additional information which we will need in order
to complete our review. We request that you respond no later than
December 31, 1982. Please send a copy of your submittal directly to
T. N. Tambling, NRC Region III, 799 Roosevelt Road, Glen Ellyn, IL
60137. This request for information is in accordance with the OMB
Clearance No. 3150-0065, which expires May 31, 1983.

Sincerely,

"ORIGINAL SIGNED BY:"

John F. Stolz, Chief
Operating Reactors Branch #4
Division of Licensing

LICENSING ACTION REQUEST FOR ADDITIONAL INFORMATION

The U.S. Nuclear Regulatory Commission, Region III is performing a review to ascertain the acceptability of your response to certain requirements contained in a post-TMI Action Item set forth in NUREG-0660 and NUREG-0737:

II.B.4 Training for Mitigating Core Damage

Specifically, this review addresses the following item from Enclosure 3 of H. R. Denton's letter of March 28, 1980, contained in NUREG-0737. Enclosure 3 addresses criteria for mitigating core damage.

Our review is presently based on your following submittals:

1. Letter dated August 4, 1980, R. P. Crouse to H. R. Denton.
2. Letter dated July 6, 1981, R. P. Crouse to J. F. Stolz.
3. Letter dated May 10, 1982, R. P. Crouse to J. F. Stolz.

We assume these submittals reflect your current training and requalification programs. Please address the following question:

In your response to a request for additional information, Reference 3, you did not completely address the question on whether all unlicensed personnel in the operations chain from the Plant Superintendent to the licensed operators received training for mitigating core damage. Did the Plant Superintendent, Assistant Plant Superintendent, shift technical advisors, and other personnel that are required to participate in any emergency situations receive their training? If they did not, please explain how they can be expected to safely direct accident recovery operations?
