Department of the Army
ATTN: Commander, Pine Bluff Arsenal
SMCPB-SF
Pine Bluff, Arkansas 71602-9500

Gentlemen:

This refers to the routine, unannounced radiation safety inspection conducted by Messrs. Richard A. Leonardi, Jr. and Bruce Earnest of this office on October 30, 1990, of the activities authorized by NRC Byproduct Material License No. 03-02868-04, and to the discussion of our findings held by the inspectors with members of your staff at the conclusion of the inspection.

The inspection was an examination of the activities conducted under the license as they relate to radiation safety and to compliance with the Commission's rules and regulations and the conditions of the license. The inspection consisted of selective examinations of procedures and representative records, interviews of personnel, and observations by the inspectors.

No violations or deviations were identified.

The inspectors also reviewed the actions you had taken with respect to the violations observed during our previous inspection conducted on December 17, 1980. They verified that the corrective actions for these four violations had been implemented as stated in your reply dated April 8, 1981.

Should you have any questions concerning this letter, we will be pleased to discuss them with you.

Sincerely,
Original Sign
