

February 1, 1982

NLEP

MEMORANDUM FOR: Brian K. Grimes, Director, Division of Emergency Preparedness
Office of Inspection and Enforcement

FROM: John T. Collins, Regional Administrator

SUBJECT: LICENSEE COMPLIANCE WITH THE FEBRUARY 1, 1982 DEADLINE
FOR A PROMPT NOTIFICATION SYSTEM

Region IV reports indicate that Arkansas Nuclear One Units 1&2, Fort Calhoun and Cooper have installed and tested their prompt notification systems. Presently, Ft. St. Vrain reports that they have delivered approximately 95% of their alert radios, conducted a radio reception test in their 5 mile EPZ, and verified reception at each installation (reception test when delivered). I am sending an inspector to Ft. St. Vrain on February 2, 1982, unannounced, to verify their status.

Unless Public Service of Colorado is incorrect in their status report, I conclude that all of the licensees in Region IV are in compliance with the February 1, 1982 deadline for implementation.

John T. Collins
Regional Administrator

Subject: Early Warning System

Reference: 1) Letter, *INDIVIDUAL D-2* to H. R. Denton
dated January 2, 1981, "Emergency
Preparedness Plans"

Dear Mr. Collins:

As requested by your staff, this letter is to confirm that the early warning system for Cooper Nuclear Station, as described in Reference 1, has been installed and is operational. During a test conducted on August 15, 1981, one deficiency was noted. This deficiency was corrected and subsequently tested satisfactorily on August 22, 1981.

If you have any further questions on this matter, please contact my office.

Sincerely,

INDIVIDUAL D-2
Division Manager of Licensing
and Quality Assurance
