Re: Application of Import License
(MISC-424)

Dear Mr. Moore:

Enclosed please find our application for a license to import Irradiated MTR Fuel from McMaster University, Hamilton, Ontario to I.C.P.P., Scoville, Idaho. Transnuclear, Inc. is filing this application for Battelle Columbus Laboratories, Columbus, Ohio.

This shipment must take place in December, 1982 due to the following:

- Cask window availability
- Reprocessing Contract with D.O.E. due to expire 31 Dec. 82
- Feed stock requirement for new fuel to meet contractual timetable
- Anticipated travel problems and delays due to inclement weather during winter months.

Because of these reasons, we request that your office drop the 30-day Federal Register notification required for this shipment.

Thank you for your time in expediting this matter.

Sincerely yours,

Barbara Hannett
