Snyder, Texas 79549

Gentlemen:

This refers to the routine, unannounced radiation safety inspection conducted by Mr. Richard A. Leonardi, Jr. of this office on November 26, 1990, involving the use of subsurface tracer material on a wellsite near Fox, Oklahoma, under reciprocity with Byproduct License No. L03549 issued by the state of Texas and to the discussion of our findings held by the inspector with members of your staff at the conclusion of the inspection. Additionally, the inspection findings were discussed with Mr. Robinson by way of a telephonic exit interview.

The inspection was an examination of the activities conducted under the general license as authorized under reciprocity and as they relate to radiation safety and compliance with the rules and regulations and the conditions of the appropriate specific license. The inspection consisted of selective examinations of procedures and representative records, interviews of personnel and observations by the inspector.

During this inspection, certain of your activities were found not to be conducted in full compliance with NRC requirements. Consequently, you are required to respond to this matter in writing, in accordance with the provisions of Section 2.201 of the NRC's "Rules of Practice," Part 2, Title 10, Code of Federal Regulations. Your response should be based on the specifics contained in the Notice of Violation enclosed with this letter.

In accordance with 10 CFR 2.790 of the Commission's regulations, a copy of this letter, the enclosure, and your response to this letter will be placed in the NRC Public Document Room.

The response directed by this letter and the accompanying Notice is not subject to the clearance procedures of the Office of Management and Budget as required by the Paperwork Reduction Act of 1980, PL 96-511.
