BV-2 Docket No. 50-412, License No. NPF-73
BVPS Physical Security Plan (PSP)

Gentlemen:

Enclosed is Revision 11 to Issue 4 of the Beaver Valley Power Station Physical Security Plan (PSP). The Revision 10 changes merely document the revised site layout in regard to temporary construction trailers, fabrication shops and equipment now that the second Unit 2 refueling outage has been completed.

These changes have been reviewed and judged not to constitute a degradation to the previous commitments in the PSP.

These changes, since they do not decrease the safeguards effectiveness of the Physical Security Plan, are being submitted in accordance with 10 CFR 50.54(p).

The enclosed materials are considered proprietary under the provision of 10 CFR 2.790(d), and Safeguards Information under the provisions of 10 CFR 73.21, and thereby exempt from public disclosure.

If you have any questions concerning this matter, please contact my office.

Sincerely,

J.D. Sieber
Vice President
Nuclear Group
