

DEC 2 1982

Docket No. 50-461

Illinois Power Company
ATTN: Mr. W. C. Gerstner
Executive Vice President
500 South 27th Street
Decatur, IL 60525

Reference: D. P. Hall, IPCo letter to R. L. Spessard, NRC, dated November 10, 1982

Gentlemen:

This letter confirms the meeting on November 18, 1982, and telephone conversation on November 19, 1982, between Mr. D. W. Hayes of this office and Mr. D. P. Hall of your staff regarding the reference above and our concurrence in a partial release of work addressed in our Confirmatory Action Letter to you dated September 1, 1982, (Stop Work Action 016). The scope of this partial release is limited to the 467 electrical conduits awaiting final construction walk down and QC inspection. Our concurrence is based on your Recovery Plan for electrical conduit dated November 11, 1982, wherein it is stated that you will notify us upon completion of the first 100 electrical conduit travelers. At that time we will perform a detailed inspection of all or selected portions of the work prior to releasing additional work.

This letter also confirms that NRC concurrence is not required in the matters associated with Training and Verification Team Recovery Plans. We will examine your actions in those areas during routine inspections.

We will gladly discuss any questions you may have concerning these matters.

Sincerely,

Original signed by R.L. Spessard
