Mr. Robert A. Clark, Chief  
U. S. Nuclear Regulatory Commission  
Office of Nuclear Reactor Regulation  
Division of Licensing  
Operating Reactors Branch No. 3  
Washington, D.C. 20555

Reference: Docket No. 50-285

Dear Mr. Clark:

This is to document information provided to you via telephone on December 2, 1982 concerning the Omaha Public Power District's Emergency Operations Facility (EOF). A conceptual design covering much of this information was provided in the District's June 1, 1981 letter.

1) EOF Construction Schedule

- a) Bid award date - February 18, 1982.
- b) Construction commenced - April 13, 1982.
- c) Construction completed - October 1, 1982.

2) Type of Construction

Single storied pre-engineered insulated metal clad building.

3) EOF Location

17 miles from the Fort Calhoun Station site.

4) Interim EOF Location

At the Fort Calhoun Station site.

5) Backup EOF Location

17 miles from the Fort Calhoun Station site. (Backup EOF used in conjunction with the interim EOF. Backup EOF will be deactivated upon activation of the new EOF.)

6) EOF Habitability

The new EOF is located outside of the ten mile radius; therefore, radiological habitability requirements are not applicable.

*A001*

Mr. Robert A. Clark  
LIC-82-395  
Page Two

The new EOF is presently being activated and we anticipate that communications will be installed within the next one to two months, at which time the EOF will be declared operational. In the interim, the existing EOF is operational. We plan to notify your office upon activation of the new EOF.

Sincerely,

W. C. Jones  
Division Manager  
Production Operations
