Dear Mr. Denton:

SUBJECT: NOTICE OF VIOLATION
(NRC Combined Inspection Nos. 50-317/94-21; 50-318/94-21)

This refers to an in-office inspection of documents related to a shipment of radioactive material from your facility to the SEG, Inc. facility in Oak Ridge, Tennessee, made on May 17, 1994. Results of this inspection were discussed via telephone with Mr. B. Watson of your staff on June 14, 1994.

Based on the results of this inspection, it appears that this activity was not conducted in full compliance with NRC requirements, as set forth in the enclosed Notice of Violation. The violation involved a shipment of radioactive material in a SeaVan that, upon receipt at the SEG, Inc. facility in Oak Ridge, Tennessee, was determined to have excessive radiation levels on the external surface of the SeaVan.

You are required to respond to this letter and should follow the instructions specified in the enclosed Notice when preparing your response. In your response, you should document the specific actions taken and any additional actions you plan to prevent recurrence.

Your cooperation with us in this matter is appreciated.
