

NOTICE OF VIOLATION

Baltimore Gas and Electric Company
Calvert Cliffs Nuclear Power Plant

Docket Nos. 50-317; 50-318
License No. DPR-53; DPR-69

During an NRC inspection conducted on June 13-14, 1994, a violation of NRC requirements was identified. In accordance with the "General Statement of Policy and Procedure for NRC Enforcement Actions", 10 CFR Part 2, Appendix C (1994), the violation is listed below:

Title 10, Code of Federal regulations (CFR), Part 71.5 requires, in part, that NRC licensees comply with all applicable provisions of Title 49, CFR when transporting radioactive material. Title 49, CFR, Part 173.441(b)(1) requires, in part, that the radiation levels on the exterior of a vehicle used for an exclusive use shipment of radioactive material, including the underside of the vehicle, have radiation levels not exceeding 200 millirem per hour.

Contrary to the above, on May 17, 1994, the licensee's exclusive use shipment of radioactive material to the SEG, Inc. facility in Oak Ridge, Tennessee, was found, upon receipt, to have radiation levels of 380 millirem per hour on the underside of the transport vehicle.

This is a Severity Level IV violation.

Pursuant to the provisions of 10 CFR 2.201, Baltimore Gas and Electric Company is hereby required to submit a written statement or explanation to the U.S. Nuclear Regulatory Commission, ATTN: Document Control Desk, Washington, D.C. 20555 with a copy to the Regional Administrator, Region I, and a copy to the NRC Resident Inspector at the facility that is the subject of this Notice, within 30 days of the date of the letter transmitting this Notice of Violation (Notice). This reply should be clearly marked as a "Reply to a Notice of Violation" and should include for each violation: (1) the reason for the violation, or, if contested, the basis for disputing the violation, (2) the corrective steps that have been taken and the results achieved, (3) the corrective steps that will be taken to avoid further violations, and (4) the date when full compliance will be achieved. If an adequate reply is not received within the time specified in this Notice, an order or a Demand for Information may be issued to show cause why the license should not be modified, suspended, or revoked, or why such other action as may be proper should not be taken. Where good cause is shown, consideration will be given to extending the response time.

Dated at King of Prussia, Pennsylvania
this 15th day of June, 1994
