Gentlemen:

Your Quality Assurance Program Approval for Radioactive  
Material Packages No. 0584 expires on February 28, 1991.

If you are an NRC licensee and conduct activities under the  
General Licenses of Subpart C of 10 CFR Part 71, or if you  
are an Agreement State licensee subject to the requirements  
of 10 CFR Part 71, you are required by 10 CFR Part 150.20  
to hold a quality assurance (QA) program approved by the  
Commission as satisfying the provisions of Subpart H of  
10 CFR Part 71. You should request renewal of your quality  
assurance program at least 30 days prior to the expiration  
date. This will provide for continuation of your QA program  
to satisfy part of the provisions of Subpart C of 10 CFR  
Part 71 until a final determination has been taken on your  
application.

Unless an exemption is provided by 10 CFR 170.11, an appli-  
cation fee of \$180.00, as required by 10 CFR Part 170.31,  
should be included with your request for renewal. This  
notice of expiration should not be construed that such  
notice will be provided in the future. If you do not  
desire to renew your QA program, please let me know.

Sincerely,

*15/ Charles E. MacDonald*
