## ENCLOSURE 1

### NOTICE OF VIOLATION

Carolina Power & Light Company  
Brunswick Nuclear Plant

Docket Nos. 50-325 and 50-324  
License Nos. DPR-71 and DPR-62

During an NRC inspection conducted on May 16-20, 1994, a violation of NRC requirements was identified. In accordance with the "General Statement of Policy and Procedure for NRC Enforcement Actions," 10 CFR Part 2, Appendix C, the violation is listed below:

Paragraph 3.2.1.3 of the licensee's Physical Security Plan requires, "keys . . . used to control access to . . . vital areas shall be controlled to reduce the probability of compromise. Keys . . . are issued to . . . designated members of the plant staff. It is intended that operations personnel use these keys only in emergency situations. Strict accountability is maintained over keys . . . The names of personnel having access to security keys are recorded . . ."

Plant Operating Manual VII, Instruction 001, Shift Turnover Checklist provides for auxiliary operator a checklist, "for accountability of necessary keys used by them during their shift", paragraph 2.0 Procedures.

Contrary to the above, on May 4, 1994, two auxiliary operators failed to maintain strict accountability of the vital area key used for emergency access during their shift.

This is a Severity Level IV violation (Supplement IV).

Pursuant to the provisions of 10 CFR 2.201, Carolina Power & Light Company is hereby required to submit a written statement or explanation to the U.S. Nuclear Regulatory Commission, ATTN: Document Control Desk, Washington, D.C. 20555 with a copy to the Regional Administrator, Region II, and a copy to the NRC Resident Inspector at the facility that is the subject of this Notice, within 30 days of the date of the letter transmitting this Notice of Violation (Notice). This reply should be clearly marked as a "Reply to a Notice of Violation" and should include for each violation: (1) the reason for the violation, or, if contested, the basis for disputing the violation, (2) the corrective steps that have been taken and the results achieved, (3) the corrective steps that will be taken to avoid further violations, and (4) the date when full compliance will be achieved. If an adequate reply is not received within the time specified in this Notice, an order or Demand for Information may be issued as to why the license should not be modified, suspended, or revoked, or why such other action as may be proper should not be taken. Where good cause is shown, consideration will be given to extending the response time.
