

United States Senate

WASHINGTON, D.C. 20510

November 3, 1982

Mr. Harold Denton
Director, Office of Nuclear Reactor
Regulation
United States Nuclear Regulatory Commission
Washington, D.C. 20555

Dear Mr. Denton:

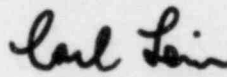

I understand that there is serious well-founded concern over the implementation of the Quality Assurance programs at the Midland nuclear plant and that NRC Region III Director James Keppler intended to raise with you the issue of how best to solve these problems.

I have received numerous letters from constituents who are interested in the progress of your actions in overseeing licensing on the Midland plant and what changes are being made in the implementation of the QA programs.

Please advise me of your discussions with Mr. Keppler and of your plans to upgrade QA programs at the Midland plant.

Thank you.

Sincerely,

Carl Levin

CL/1e

cc: Mr. James Keppler
