License No. #07-14850-01
Docket No. #030-07565

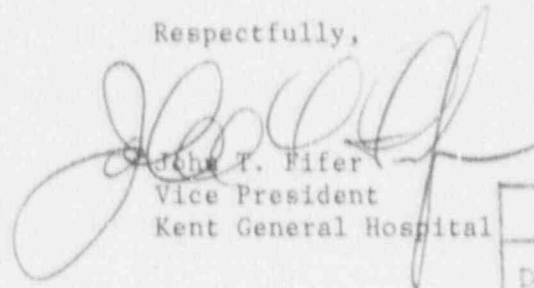

Dear Ms. Joustra:

In response to our phone conversation this morning, I would like to clarify our intent to have Doctors Craig Taylor, Mahendra Parikh, and Kisan Karapurkar remain as authorized users on our N.R.C. license # 07-14850-01 for the time being. If qualified, Doctor Sughra Raza will be added as a user and become our next Radiation Safety Officer as well.

Concerning the issue of the financial assurance requirements for decommissioning as it pertains to our N.R.C. license, I hereby guarantee that at no time will our possession limits as indicated in Items 8a and b exceed 10⁴ times the applicable quantities in Appendix C of 10CFR Part 20.

I appreciate your efforts in helping us resolve these issues so readily. If there is any additional information required, please feel free to contact me.

Respectfully,

John T. Fifer
Vice President
Kent General Hospital
