Licensing Branch No. 2, DL

SUBJECT: DAILY HIGHLIGHT - LA SALLE UNIT 1

A license condition for the La Salle Unit 1 prescribed that prior to exceeding 50 percent power an independent review must be completed on its HVAC system acceptable to the NRC staff. On October 27, 1982, an independent review was submitted by C. F. Braun, Commonwealth Edison's independent reviewer, indicating that the HVAC system was acceptable. By letter dated December 3, 1982, the NRC staff removed the 50 percent power restriction as a result of its finding that the independent review was acceptable.
