Docket No. 50-293

Boston Edison Company M/C Nuclear
ATTN: Mr. William D. Harrington
Senior Vice President, Nuclear
800 Boylston Street
Boston, Massachusetts 02199

Gentlemen:

Subject: Inspection 50-293/82-19

This refers to your letters dated September 15, 1982 (BECO Ltr. No. 82-248), and October 22, 1982 (BECO Ltr. No. 82-275) in response to our letter dated August 16, 1982.

Thank you for informing us of the corrective and preventive actions documented in your letters. These actions will be examined during a future inspection of your licensed program.

To enable us to fully evaluate the actions you plan to prevent recurrent problems with control of combustibles, discussions were held between the resident inspector and Mr. Mathis of your staff on September 29, 1982. Subsequently, we have confirmed that you implemented an action plan in October 1982 designed to ensure that plant personnel awareness and sensitivity to causal factors involved in repetitive violations is enhanced. Key elements of this action plan include periodic staff meetings with the station manager as well as group safety meetings with emphasis on fire door controls, combustibles, housekeeping and security. Your actions in this area will be reviewed for effectiveness during our routine inspections.

Your cooperation with us in this matter is appreciated.

Sincerely,

Original Signed by
