Docket No. 50-346

Toledo Edison Company
ATTN: Mr. Donald Shelton
Vice President
Nuclear-Davis-Besse
Centerior Service Company
c/o Toledo Edison Company
300 Madison Avenue
Toledo, OH 43652

Gentlemen:

This refers to the routine safety inspection conducted by Messrs. R. A. Paul and A. G. Januska of this office on January 14 - 18, 1991, of activities at the Davis-Besse Nuclear Power Station, Unit 1 authorized by NRC Operating License No. NPF-3 and to the discussion of our findings with Messrs. Wood and Polyak and others of your staff at the conclusion of the inspection on January 18, 1991, and in subsequent telephone discussions with members of your staff between January 22 and February 22, 1991. It also refers to discussions with Mr. Polyak and others of your staff during a February 12, 1991 meeting in the Region III office.

The enclosed copy of our inspection report identifies areas examined during the inspection. With these areas, the inspection consisted of a selective examination of procedures and representative records, observations, and interviews with personnel.

No violations of NRC requirements were identified during the course of this inspection.

In accordance with 10 CFR 2.790 of the Commission's regulations, a copy of this letter will be placed in the NRC Public Document Room.
