Dear Sir:

We are a consulting services organization working with the EPRI Nuclear Maintenance Application Center on a project aimed at developing an Maintenance Guide for Relays. In this context, we would a review copy of the following documents that formed the basis for the research results documented in NUREG CR 5762:

- 1 Gleason J, F. et. al., "Test Plan c. Auxiliary Relays for the Comprehensive Aging Assessment of Circuit Breakers and Relays for Nuclear Plant Aging Research Program, Phase II," Wyle 60103-3A, July 1989.
- 2 Gleason J, F. et. al., "Test Plan of Control Relays for the Comprehensive Aging Assessment of Circuit Breakers and Relays for Nuclear Plant Aging Research Program, Phase II," Wyle 60103-4, July 1989.
- 3 Gleason J, F. et. al., "Test Plan of Timing Relays for the Comprehensive Aging Assessment of Circuit Breakers and Relays for Nuclear Plant Aging Research Program, Phase II," Wyle 60103-6, July 1989.
- 4 Gleason J, F. et. al., "Test Plan of Electronic Relays for the Comprehensive Aging Assessment of Circuit Breakers and Relays for Nuclear Plant Aging Research Program, Phase II," Wyle 60103-7, July 1989.

If you need additional information, please feel free to call me at 516-423-7482. Thank you,

Very truly Yours,

Sonny Kasturi.
