Docket/License No. 50-293/DPR-35

E. Thomas Boulette, PhD  
Senior Vice President - Nuclear  
Boston Edison Company  
Pilgrim Nuclear Power Station  
600 Rocky Hill Road  
Plymouth, Massachusetts 02360-5599

Dear Dr. Boulette:

Subject: **Safeguards Inspection 50-293/94-13 (06/20-24/94)**

This letter refers to the above subject physical security inspection of the Pilgrim Nuclear Power Station by Messrs. E. B. King and A. Della Ratta of this office. Areas examined during the inspection are described in the enclosed report. Within these areas, the inspection consisted of observations by the inspectors, interviews with personnel and selective examinations of security procedures and records. Our preliminary findings were discussed by Mr. King with Mr. L. Schmeling and other members of your staff at the conclusion of the inspection.

Overall, we found that your physical security program was generally directed toward assuring public health and safety. Appropriate management attention to security was evident in the continuing management review of overall program implementation and effectiveness, and in support for upgrades and enhancements. However, failure to properly classify and control vehicles granted unescorted access into the protected area appeared to violate NRC requirements as set forth in the enclosed Notice of Violation (Notice). You are required to respond to that Notice and, in doing so, should follow the instructions therein. Particular attention should be paid to actions to prevent recurrence.

Thank you for your cooperation.

Sincerely,

**Original Signed By:**  
**James H. Joyner**
