DRAFT GENERIC LETTER 88-20, SUPPLEMENT 4

In a letter dated February 26, 1991, Boston Edison Company provided additional comments on draft Generic Letter (GL) 88-20, Supplement 4. As a result of discussions with your staff, we are writing to clarify certain statements contained in our February 26 letter regarding our plans to enhance our Level 1 Probabilistic Risk Assessment (PRA) to address seismic IPEEE issues.

Boston Edison hereby commits to perform a seismic PRA to address seismic IPEEE issues. Accordingly, we request the NRC recognize our use of PRA for performing the seismic portion of the IPEEE, in both NUREG 1407 and GL 88-20, Supplement 4, prior to final issuance.

Should you have any questions regarding this letter, please contact Mr. John Dietrich at (617) 849-8948.
