Re: Power Authority State of New York Power, J.A. FitzPatrick
Nuclear Plant

Dear Mr. Sellin,

We are requesting the schedule for the inspection of the core
shroud for cracks at the Power Authority State of New York Power,
J.A. FitzPatrick Nuclear Plant.

In addition, we are requesting the schedule and inspection
program for the reactor internals at J.A. FitzPatrick Nuclear
Plant because the NRC is now studying the vulnerability of
cracking of the twenty-four other reactor internals. If there is
not a schedule available for the other reactor internals for
inspection, please indicate why this is not important at this
time.

Sincerely,

Cindy Gagne
