**POLICY ISSUE**  
(Information)

March 6, 1991

SECY-91-060

For: The Commissioners

From: James M. Taylor  
Executive Director for Operations

Subject: QUARTERLY REPORT ON EMERGING TECHNICAL CONCERNS

Purpose: To inform the Commission of newly emerging technical concerns and proposed approaches for their resolution.

Background: In the November 13, 1989, staff requirements memorandum (SRM 891025), the Commission asked the staff to keep it informed each quarter of new issues and to propose approaches for resolving these issues. The Commission also asked the staff to work closely with industry for a timely resolution of each technical issue.

Discussion: The staff has identified no technical concerns that should be brought to the attention of the Commission. We will send our next update on emerging technical concerns to the Commission in June 1991.
