

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D.C. 20555-0001

June 21, 1994

Docket No. 50-416

Mr. Donald C. Hintz
President and Chief Executive Officer
Grand Gulf Nuclear Station
Entergy Operations, Inc.
P.O. Box 31995
Jackson, MS 39286-1995

Dear Mr. Hintz:

On June 7-8, 1994, NRC senior managers met to evaluate the nuclear safety performance of operating reactors, fuel facilities, and other materials licensees. The NRC conducts this meeting semiannually to determine if the safety performance of the various licensees exhibits sufficient weaknesses to warrant increased NRC attention or if it is trending adversely and requires that steps be taken to communicate concerns to the utility's president or board of directors. In addition, at this meeting, senior managers identify specific plants that have demonstrated a level of safety performance that deserves formal NRC recognition. At the January 1994 Senior Management Meeting, the Grand Gulf Nuclear Station was identified as having achieved a high level of safety performance and, as a result, met criteria for recognition of its performance. I am pleased to note that Grand Gulf has again been identified as a good performer.

In identifying such plants, NRC senior managers perform an evaluation of performance in many areas including operational safety, self-assessment, problem resolution, and plant management organization and oversight.

The NRC recognizes that, to achieve the level of performance demonstrated by the Grand Gulf Nuclear Station, there must be management involvement in all phases of plant activities. In addition, the staff must be dedicated, knowledgeable, and fully supportive of plant activities, and a commitment to safety must exist throughout the organization. We commend you and your staff for achieving this high level of safety performance. Your achievement is a positive example to the industry.

The greatest challenge that you now face is to maintain this level of performance and not to rest on past achievements. Continued management involvement and support, and dedicated efforts from your staff to identify and
