IN RESPONSE REFER
TO FOIA-82-404

Dear Mr. Sawicki:

This is in response to your letter dated August 30, 1982 in which you requested, pursuant to the Freedom of Information Act, a copy of all documents since 1979 concerning drug or alcohol abuse by persons at the Perry Nuclear Power Plant, Perry, Ohio.

During a September 13, 1982 telephone conversation with Mr. Stephen Isaacs of my staff you agreed to receive a segregated version of the documents with identifying information (name, home addresses, etc.) removed. You were also informed that you may, at a later date, request an undeleted version of this document.

Sincerely,

J. M. Felton, Director
Division of Rules and Records

FREEDOM OF INFORMATION
ACT REQUEST

FOIA-82-404
Rec'd 9-1-82

Mr. Felton:

Pursuant to the Freedom of Information Act 5 USC 552 as amended and the provisions of 10 CFR 9, the undersigned hereby requests the following items:

All documents, reports or correspondence since 1979 concerning drug or alcohol abuse by persons working at the Perry nuclear power plant construction site in Perry, Ohio. This information should include any and all documents involving construction workers as well as security personnel. Also included in this information should be any and all documents concerning allegations made in July 1981 by a former security guard who charged that Perry plant security was involved in drug use, theft and other improprieties.

I request that my newspaper be made aware of any and all costs for these materials.

Respectfully yours,

Stephen G. Sawicki

Dear Sir;

During my 19 month tenure as a security guard at the Perry Nuclear Power Plant in Perry, Ohio I saw many incidents which I feel you should be concerned with. They are as follows:

1. Several guards have, and may still, consume narcotics (marijuana and amphetamines) while on duty -
2. A few guards have -
 - a. found unsecured contractor facilities and unlawfully removed items for personal use -
 - b. forcibly entered facilities and unlawfully removed items for personal use -

3. A shift supervisor left the project to go flying in a friends airplane during a day when there was a critical manpower shortage.
4. The project fire engine has many discrepancies which may effect its operation if, and when, required. This has been brought to the attention of the security department on several occasions and ignored.
5. Guards have been permitted to sleep on duty when the shift supervisor was aware of such actions.

These are just five of the many problems within the security administration of this plant. I, as a defender of nuclear power, would appreciate your concern into these matters. I am fully willing to take a polygraph test in regards to these allegations. Expecting your reply, it is my pleasure to remain,

Respectfully Yours

Dear Mr. []

Your letter (undated) to the NRC in Washington, D.C. expressing concerns about the security administration at the Perry Nuclear Power Plant has been referred to this office. Efforts to reach you by telephone to discuss these concerns have been unsuccessful.

This is to advise you that during the construction of nuclear power plants and prior to the receipt of reactor fuel on site, the NRC does not impose any security requirements and the licensee, in this case the Cleveland Electric Illuminating Company, is not required to make any commitments regarding security. We, therefore, have no basis for pursuing the matters contained in your letter.

These matters may, however, be of interest to the Cleveland Electric Illuminating Company, site contractors or local authorities. You may wish to communicate directly with one or more of those organizations.

If you wish to discuss these matters further, please call me collect at (312)932-2500.

Sincerely,

G. A. Phillip
