

## APPENDIX A

### NOTICE OF VIOLATION

Houston Lighting & Power, Company

Dockets: 50-498

50-499

South Texas Project, Unit 1 and 2

Licenses: NPF-76

NPF-80

During an NRC inspection conducted on May 16-20 with in-office inspection through July 8, 1994, a violation of NRC requirements was identified. In accordance with the "General Statement of Policy and Procedure for NRC Enforcement Actions," 10 CFR 2, Appendix C, the violation is listed below:

Criterion XVI of 10 CFR 50 requires, in part, that measures shall be established to assure that conditions adverse to quality are promptly corrected. Office Memorandum ST-HS-HS-13946, dated December 14, 1990, identified (as the result of an evaluation of Deficiency Report 90-021) that the reactor makeup water pumps should be included in the inservice test program.

Contrary to the above, the measures established were ineffective in promptly correcting the conditions adverse to quality in that as of July 1, 1994, the reactor makeup water pumps had not been implemented into the inservice test program in that they had not been tested, nor had surveillance test procedures been developed.

This is a Severity Level IV violation (Supplement 1) (482/9419-03).

Pursuant to the provisions of 10 CFR 2.201, Houston Lighting and Power Company is hereby required to submit a written statement or explanation to the U.S. Nuclear Regulatory Commission, ATTN: Document Control Desk, Washington, D.C. 20555 with a copy to the Regional Administrator, Region IV, 611 Ryan Plaza Drive, Suite 400, Arlington, Texas 76011, and a copy to the NRC Resident Inspector at the facility that is the subject of this Notice, within 30 days of the date of the letter transmitting this Notice of Violation (Notice). This reply should be clearly marked as a "Reply to a Notice of Violation" and should include for each violation: (1) the reason for the violation, or, if contested, the basis for disputing the violation, (2) the corrective steps that have been taken and the results achieved, (3) the corrective steps that will be taken to avoid further violations, and (4) the date when full compliance will be achieved. If an adequate reply is not received within the time specified in this Notice, an order or a Demand for Information may be issued to show cause why the license should not be modified, suspended, or revoked, or why such other action as may be proper should not be taken. Where good cause is shown, consideration will be given to extending the response time.

Dated at Arlington, Texas  
this 14<sup>th</sup> day of July 1994
