MARK KLASKY
US NUCLEAR REGULATORY COMMISSION
MAIL STOP T8A4
WASHINGTON DC 20555

Dear Mr. Klasky:

I am requesting change for Designated RSO at Cabot Performance Materials.

Because of reassignment, I will no longer be able to devote the necessary time to the responsibilities of RSO.

I leave the responsibility for RSO here at Cabot with Mr. Anthony T. Campitelli, our Manager of Environmental Affairs. Tony has completed the RSO training at Radiation Safety Associates in Hartford, CT, and has worked with me for the past five years on RSO projects.

I thank all of you for the services you have provided me over the years. It has been my pleasure meeting and working with you and your associates.

Best Regards,

William C Gannon
