

Docket Nos. 50-343/364

JAN 05 1983

Mr. F. L. Clayton, Jr.
Senior Vice President
Alabama Power Company
P. O. Box 2641
Birmingham, Alabama 35291

Dear Mr. Clayton:

This is in response to your letter of September 21, 1982 regarding Revisions 4 and 5 to the "Joseph M. Farley Plant Security Plan."

With the exception of the amendments to Section 1.3.1.3, the personnel reliability program, we have determined that these changes are consistent with the provisions of 10 CFR 50.54(p) and do not decrease the effectiveness of the Plan. These changes are, therefore, acceptable. However, you shall continue to implement your previously approved physical security plan relative to Section 1.3.1.3.

The enclosure contains a discussion of our concerns on this matter.

The enclosures to your letter contain Safeguards Information of a type specified in 10 CFR 73.21 and are, therefore, being withheld from public disclosure.

Sincerely,

Steven A. Varga, Chief
Operating Reactors Branch #1
Division of Licensing

COMMENTS ON THE JOSEPH M. FARLEY
NUCLEAR PLANT SECURITY PLAN - REVISION 5

<u>Section</u>	<u>Page</u>	<u>Comment</u>
1.3.1.3	6	As described in this section, an individual whose background investigation could not be completed within 60 days could be granted continued unescorted access for an <u>unrestricted</u> period of time. To assure that the screening process is continuing and that interim access authorizations are not extended indefinitely, an upper time limit needs to be established.
