Gentlemen:

This refers to the inspection conducted by Messrs. D. R. Hunter and J. E. Bess of this office during the period of January 28 through February 1, 1991, of activities authorized by NRC Operating License NPF-47 for River Bend Nuclear Station, and to the discussion of our findings with you and other members of your staff at the conclusion of the inspection.

Areas examined during the inspection included previously identified inspection findings and evaluation of your process for assessing identified problems. Within these areas, the inspection consisted of selective examination of procedures and representative records, interviews with personnel, and observations by the inspectors. The inspection findings are documented in the enclosed inspection report.

Within the scope of the inspection, no violations or deviations were identified.

We have also examined actions you have taken with regard to previously identified inspection findings. The status of these items is identified in paragraph 2 of the enclosed report.

Should you have any questions concerning this inspection, we will be pleased to discuss them with you.

Sincerely,
Original Signed By:
Samuel J. Collins
