License/Docket Nos. DPR-53/50-317; DPR-69/50-318

Mr. Robert E. Denton
Vice President - Nuclear Energy
Baltimore Gas and Electric Company
Calvert Cliffs Nuclear Power Plant
1650 Calvert Cliffs Parkway
Lusby, Maryland 20657-4702

Dear Mr. Denton:

Subject: NRC Security Inspection Nos. 50-317/94-14; 50-318/94-14 (4/4-7 and 14/94)

This letter refers to the above subject security inspection of the Calvert Cliffs Nuclear Power Plant, Units 1 and 2, by Messrs. R. J. Albert and G. C. Smith of this office. Areas examined during the inspection are described in the enclosed inspection report. Within these areas, the inspection consisted of security activity observations, interviews, and examination of selected procedures and representative records. Our preliminary findings were discussed by Mr. Albert with Mr. L. Gibbs and other members of your staff at the conclusion of the inspection.

Overall, we found that your physical security program was generally directed toward assuring public health and safety. Management support was evident in the implementation of several program enhancements, and alarm assessment aids were found to be excellent. However, your audit program failed to evaluate various security aspects specified in the NRC-approved physical security plan. That appeared to violate NRC requirements as set forth in the enclosed Notice of Violation (Notice). You are required to respond to that Notice and, in doing so, should follow the instructions therein. Particular attention should be paid to corrective actions taken and actions planned to prevent recurrence.

Thank you for your cooperation.

Sincerely,

Original Signed By:
James H. Joyner
