Dear Mr. O'Grady:

This is in reference to your August 29, 1990 letter in which you asked if I was in a position to reply to the comments you made in your previous letter of July 26, 1990, in response to NRC's promulgation of its Below Regulatory Concern (BRC) Policy.

At the time I received your July 26 comments, it appeared to me you were seeking a response related to the BRC policy, but instead were expressing opinions on much broader political issues. I am not in a position to respond to these issues.

I suggest that you make your concerns known to your Congressional representatives. As your elected officials, they have had, and will continue to have, a significant bearing on the future course of the nuclear industry and the issue of nuclear waste management.

You also inquired regarding employment opportunities with the NRC. Enclosed is a Standard Form 171 for your use. If you complete and return this form, we will review it to determine if your qualifications are suitable for any position in the agency.

Sincerely,

Charles E. Norelius

Charles E. Norelius, Director
Division of Radiation Safety and
Safeguards
