TUELECTRIC

May 6, 1994

William J. Cahill, Jr.
Group Vice President

U. S. Nuclear Regulatory Commission
Attn: Document Control Room
Washington, DC 20555

SUBJECT: COMANCHE PEAK STEAM ELECTRIC STATION (CPSES)
DOCKET NOS. 50-445 AND 50-446
CANCELLATION OF THE 1994 GRADED EXERCISE

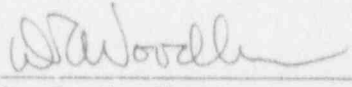

Gentlemen:

Following discussions with Mr. T. A. Bergman of NRR, TU Electric is formally cancelling the emergency preparedness exercise originally scheduled for May 11, 1994. This cancellation is based on the fact that TU Electric has already conducted two successful utility only exercises in January and April of 1994. The next evaluated exercise for CPSES is planned for the early part of 1995.

If there are any questions on this issue, please contact Mr. Norman Hood at (817) 897-5889.

Sincerely,

William J. Cahill, Jr.
