Gentlemen:

Subject: Inspection No. 82-01

This refers to the routine safety inspection conducted by Mr. C. Stearns of this office on December 9, 1982 of activities authorized by NRC License Nos. 31-13511-04 and 31-13511-05 and to the discussions of our findings held by Mr. Stearns with Dr. Chaves and Mr. Button at the conclusion of the inspection.

The inspection was an examination of activities conducted under your license as they relate to radiation safety and to compliance with the Commission's rules and regulations and the conditions of your licenses. The inspection consisted of selective examinations of procedures and representative records, interviews with personnel, measurements made by the inspector, and observations by the inspector.

Our inspector also verified the steps you have taken to correct the violation brought to your attention in the enclosure to our letter dated April 3, 1981. We have no further questions regarding your action at this time.

Within the scope of this inspection, no violations were observed.

In accordance with Section 2.790 of the NRC's "Rules of Practice," Part 2, Title 10, Code of Federal Regulations, a copy of this letter will be placed in the Public Document Room.
