Gentlemen:

SUBJECT: EMERGENCY OPERATING PROCEDURES INSPECTION PROGRAM - INSPECTION
REPORT NO. 50-413/94-13 AND 50-414/94-13

This is to advise you of a special inspection initiative that is being performed at operating reactors. It will include an inspection to be performed at your Catawba site. The initiative is entitled the "Emergency Operating Procedures Inspection Program."

The purpose of the inspection is to ensure that changes to the Emergency Operating Procedures (EOPs) meet commitments and regulatory requirements. This inspection will consist of selective examinations of the EOPs and a review of the analysis and documentation which support the EOPs. The inspection is scheduled for May 31-June 3, 1994 and June 13-17, 1994.

NRC staff will be in contact with members of your staff to discuss the details of the inspection.

If you have any questions in the interim regarding the inspection program, please contact Mr. G. Hopper (404) 331-4179.

Sincerely,
